

Has it worked else where?

Lawrence Weston recently completed a community plan:

- Their plan now means the community has a clear set of priorities and a clear structure to work in. Residents, Community Groups and Service providers know where to focus their efforts to meet the needs of the wider community.
- As a direct result of producing the community plan, the City Council recommended Lawrence Weston to get £1,000,000 from the Big Local, The Lottery Funder. This was because the plan showed they were a community who knew what they wanted to achieve and could make good use of the funding to achieve it.
- The community has a stronger clearer voice that can't be ignored by the developers.
- There is a greater sense of community, because residents help create the plan, residents are steering the future of their community.
- The City Council, Police, Health and Employers have taken notice of Lawrence Weston and it's needs. The plan has influenced how they work.

Thank You For Your Help.

We hope that this leaflet has helped you to understand what a Community Plan is and what it can be used for, but most of all how important YOU are to this process.

Thanks for completing this survey. Your helping Southmead to have a stronger voice to influence the future for the good of all of us.

Southmead Community Plan Steering Group
